The only key you will ever need to comprehending the legal system is to realize that it only exists in your **mind**. Many people fail at comprehending the legal system, because their mind is scattered, dis-organized and confused. It has been made like that for a reason. When the mind is concentrated, organized and clear, it is very simple to comprehend the legal system.

When your mind is clear you will be able to **separate** reality from fiction. Reality is where you live. You see nature, people and buildings. You behave in a certain way and interact with all those things. Fiction is what happens in your head. Opinions, emotions and thoughts you have **about** the things you interact with, exist in your mind. In reality, living bodies move around and behave in a certain way. In fiction, in your mind, ideas roam about. Those ideas can become reality, when you **act upon** them with **behavior**.

The legal system is **fiction**. Reality is real. When you can separate those two things you will comprehend the legal system. There are **two** of you. One is the living body, the living being, which contains life and operates in creation. The other is a dead body, a dead being, a fiction, something made up in the mind which operates in fiction **only**. This dead being is the **persona**, the document that was created when your body came out of your mother. The persona is the birth certificate, passport or any type of ID.

The very **essence** of the legal system is this: The living being with its living body **acts as if** it **were** the dead entity, the persona. Of course, the living being **is NOT** the dead being, but **it acts as if it were**. Please reflect on this as much as you can.

The living being **decides**, by free will, to be an **actor** and put on a **mask**. The living being decides to say: 'yes, I am my ID'. Of course, the living being is not a passport, ID or birth certificate, BUT they **act as if** they **are**. The essence of the legal system is to **EQUATE** the living being with the dead being. The legal system can only function if the living being **acts out a ROLE** on behalf of the dead being. The living being **gives life** to the dead being, to the fiction, to the document, to the mask. The living being does so by saying it is the dead being and by signing documents on behalf of the dead being. The living being puts the dead being **before** the living being. The living being is then subordinate to the dead being. The dead being is **fully** controlled by the legal system, and as a consequence, so is the living being.

When you **real-ize** that you are **NOT** the dead entity, that you are not the fiction, that you are not your document, the legal system **seizes** to exist. You will revert back to who you really are: a living being with a living body, who acts on his/her **own** behalf. You stop acting. You stop lying. You stop the theater. Then you will be free of the shackles of the legal system.
