Perhaps that title may shock you. Planned sure, but why faked? Because it is the usual misdirection to keep your eyes off the real agenda and push you into more fear. Let me show you how most people are duped within a societal shit-storm that we already find ourselves in.

Controlled opposition news site ZeroHedge¹ featured retired British Army Colonel, Richard Kemp, from the Joint Intelligence Committee, warning us for civil war as European societies, including the UK's, are allegedly collapsing. That is already a huge red flag, trailing more red flags.

The obvious red flag is that he is a retired *colonel* with the government body that coordinates UK intelligence. Meaning, he is at the heart of creating chaos and division in the UK, because that is exactly what intelligence does.

Intelligence agencies are not here to protect their societies from foreign and domestic threats, but they are here to actually wage psychological war against their own people.

This colonel is basically announcing some details for all the plans UK intelligence has for UK citizen for the future. All wars are planned and executed by the same intelligence people, including the civil ones. Kemp is no different. He is one of them. Keep that in mind, because he is playing controlled opposition and he is gaslighting you to lead you astray.

The misdirection he uses, is blaming the puppet politicians and distressing you with the usual fear porn. What he is carefully **not** mentioning is the agenda behind all this chaos. I will get into the real agenda a bit further on.

Of course, the European societies are under stress and they are changing, but they are not collapsing, they are being **remade**. If they were collapsing, the international jewish banking conglomerates would not have any customers to sell one of their many scams to. They would not have de facto slaves buying into their many deceptions. So nothing is collapsing. It is just classing psychological warfare and deceptions.

And how would you remake a nation? By **replacing** the target population with people from other nations who have **immigrated** to the European nations, where historically predominately white populations have solidified cultural heritages for centuries. These immigrants are predominantly from the Middle East, Africa and Asia.

You can also remake a nation by letting the target population **intermix** with these immigrants to create a derivative race that has no feeling or foundation for the cultural roots where it is currently living. It is just a race of ignorant slaves that can easily be manipulated and controlled. And that is where Europe is at this moment. Not fully, but getting there steadily. There is no stopping it. And this is done by protecting the immigrants at all costs, even if they show criminal behavior and by demonizing the white target population.

What about the other red flags? The interview with the British colonel is a treasure trove of gaslighting, misdirection, lies and deception. I will unpack all relevant aspects and show you how they do it.

The first trailing red flag is the obvious misdirection what the **source** is of the chaos. Colonel mentions:

“the agitators are “fostered by,” and “funded to a large extent, by our international enemies like Russia, China, Iran, and other countries as well.”

Classic. Naming the bogus usual ‘enemies’, while the actual threat is being kept hidden. The actual threat comes from British Intelligence itself, fostered and sustained by the decades long immigration agenda, supported by British

Intelligence. Kemp's statement is 100% bullshit and he knows it. Kemp continues:

"together with other causes," these Islamist leftists will "come together to threaten the cohesion and the culture, the entire culture and political existence of the West."

More gaslighting as usual. For years, Islamists were allowed to enter the UK. Their leaders are completely controlled and funded by British Intelligence through proxy untraceable bank accounts. Their goal is to create chaos in society and create artificial division. It is controlled divide and conquer, with intelligence agencies behind it. The result is full control of society.

He goes on:

"the people in the UK have not really raised their voices against this, or in a very limited way only. But the more it develops, and it is going to develop more and more, the more unrest we are going to see,"

The people in the UK know damn well what is going on and they also know that the politicians are not working in their favor, rather the politicians are frustrating and sabotaging any solution to stop this chaos. With that statement, the indigenous population of Britain are made to look like a bunch of cowards, not saying anything. But the opposite is true. They **are** speaking out, but it is being **censored** and people are being **shamed** for speaking out. The same goes for speaking out against the Jewish control of the world and the Jews' many lies.

If it were up to the local population, they would send all immigrants back and stop more influx of them. They would stop the financial aid and make it unattractive for them to even come to Europe in the first place. But that is not happening, because of the politicians, who are in the Jews' pockets.

The politicians' job is actually preparing the right conditions for chaos. They are instructed to do so, by their handlers, as they are already compromised and black-mailable, so there is nothing we can expect from them. You can read the rest of the article, including videos of war professor Betz in the references.

So what is this agenda that is going on? It is simple. It is the creation of a new European race of intermixed original peoples Europe and immigrants. It is called the Kalergi plan and contrary to what you might have heard, it is very real. Angela Merkel prides herself for receiving the Kalergi prize and called it her biggest achievement. Yeah, allowing **millions** of refugees into Germany gets your prizes. She is the biggest traitor that Germany has ever seen, after Hitler.

The Kalergi plan is an extermination agenda to get rid of the white European race and replace it with a more docile, mixed race that is easier to control.

Richard Coudenhove-Kalergi, the father of the European Union, envisioned this plan, that came to be known as the Kalergi plan, to mix the indigenous populations of Europe with foreign hordes to basically change the demographic makeup of Europe. Coudenhove-Kalergi was directly funded by the Jewish banker Max Warbug, through Louis Rothschild. Coudenhove-Kalergi wrote the book 'Praktischer Idealismus' in 1925 in which he stated that the Jews are a **master race** and that the only way for the Jews to rule the world is by **weakening** the European race, their prime enemy.

The method to **weaken** the European race was to destroy their genetic and cultural heritage through the influx of foreign hordes from Asia, Middle East and Africa and have them intermix with them. Also methods of financial pressure through which Europeans cannot afford many children (thus diminishing the replenishment factor of original Europeans), social payment programs for immigrants to help them produce, on average, more than 3 children per family (thus increasing their replenishment factor) and forced censorship of criminal behavior of immigrants, contributed to this weakening of the European race.

This is basically a dilution of the genetic European DNA, creating a race without sense of nationhood, original roots or history. This mixed race then would be far easier controllable and also more militant towards the original people of Europe.

Coupled with this, it would also fulfill the Jewish Kabbalistic Messianic prophecies of Jews ruling the world through the weakening of their arch-enemy, the white Christian populations of the West. This also includes white populations of the USA, Canada, Australia, South Africa and certain nations in the Caucasus.

The Kalergi plan is the real agenda and people like Colonel Kemp is just trying to fool you with lies and deceptions. Be aware of these agents, especially if they are demonstratively connected to the intelligence agencies.

Of course this plan was devised decades ago and has evolved into a much more sophisticated beast, within more countries and on more continents, but the fundamentals are the same: weaken your enemy and through that be able to control much more easily the outcome of your plans.

So what is the chaos coming? It will be **controlled** with the intelligence agencies setting up the indigenous populations against the foreign population to create strife and division. It will surely **not** be a grassroots movement, rather a controlled shit-storm, to have the two groups going against each other.

Like that, these two groups would never think of actually getting rid of the real instigators and planners of this chaos.
