Whitney Webb is controlled opposition.

Private opinion with conclusions derived from own research

Perhaps you had a hunch about researcher Whitney Webb that she is controlled opposition. I am here to tell you that you were right.

Although she says a lot of good things that are important, just like any other controlled opposition agent, she gaslights you about many other things. It is the classic muddying of the waters with a large part of truth and a smaller part of deception and lies. We will get into all the gaslighting that she does in a moment.

Let's look at her bio¹ for a second. She has been cooperating with controlled opposition websites like Global Research (right-wing, selling many psy-ops as real), Ecowatch (pushing the climate angle), The Ron Paul Institute (pushing many psy-ops as real), 21st Century Wire (Patrick Henningsen, RT reporter and pusher of many psy-ops as real, intelligence front), Mint Press News (selling many psy-ops as real including the fake war in Israel², intelligence front) and the Last American Vagabond (selling several psy-ops as real).

These are a lot of red flags already with all these associations. But there is more.

Whitney Webb sells the death of Jeffrey Epstein as real. She gives you much useful information, but fails to tell you that Epstein faked his death^{3 & 4}. Webb also sells the fake Ghislaine Maxwell case as real⁵. The fact that Epstein was a giant crook and deceiver on so many levels, is something I can agree on with Webb. That is the truth part in her story. It is the deception part of her narrative that I have a problem with.

She calls her own blog 'unlimited hangout', but it should be called 'limited hangout' as she is selling lots of psy-ops as real and calling it -ironically - 'unlimited hangout'. In other words, she is gaslighting you while pretending not to gaslight you. Classic.

'Limited hangout' is an intelligence term and basically stands for sharing sensitive information to the public, but keeping the core truth concealed. Like sharing many truths about Epstein to the public, but withholding the most important bit: that he faked his death.

This piece of information about Epstein has massive repercussions, because as everybody believes he is dead, it just disarms all opposition, dissolves all links of Epstein with the controlling Jewish International banking families and the crony business as usual continues. It is an intelligence tactic to **disarm the mind**. If something does not exist, you won't bother investigate it. He's dead, so case closed.

That is why controlled opposition is dangerous and a despicable practice that needs to be exposed. Revealing much about Epstein, but never mentioning that he faked his death is the major problem in Whitney Webb's narrative. It disarms **any opposition** to pursue further links and to pursue people associated with Epstein, because people think Epstein is dead. It dissolves any potential court cases or any serious pursuits, because he is considered dead. It is just another form of brainwashing, albeit a very cunning one.

With Epstein there is another twist: Besides the mainstream narrative that he is 'dead', many believe that he did not kill himself, but that he was killed by intelligence or the government. That is another lie. It is another mouse trap. The correct answer is that he is still **alive** and that his 'death' was faked. It does not matter if he killed himself or that the government had done that. Look beyond the deceptions. Look beyond the dialectic.

Bitcoin is another psy-op that Whitney Webb is advocating for, by reporting on the dangers of limiting it by government or shutting it down. The truth is that bitcoin is a scam⁶ and a controlled opposition asset that has been developed by the intelligence community. The official story about it is bullshit, just like the stories about all crypto currencies. It is another way to launder money and to steal money from people who hold crypto's. Another purpose of crypto's is to let people get used to digital 'money' gradually. This will more easily usher in the currency of the future: central bank digital currencies (CBDC).

Webb is making Bitcoin seem as the solution to the governmental financial control. The truth is that the solution is to end the control of the Jewish international banking families, end usury, end the FED, end money as debt, end printing money out of nothing, and re-instate personal contracts between people in which labor is a real asset of trade, without the intervention of bankers, insurers or governments.

To end all these problems is to **end the power to print labor** out of **thin air**. That is the essence of the entire **slave** system. Bitcoin is not the solution. It is another gimmick of enslavement. Bitcoin and the rest of the crypto's are just another ponzi scheme that Webb is gladly peddling it to the masses.

But you can also know that Whitney Webb is controlled opposition by the people that she has done interviews with. This is guilt by association. Here are a few controlled opposition agents that interviewed Webb:

- Russel Brand, who was outed as an agent in this article⁷ and this one⁸. You can see the interview here⁹.
- Glenn Beck¹⁰ is another controlled opposition agent and Jesuit who pushes many psy-ops like the fake¹¹ Norse Breivik 'massacre' and the Oklahoma City bombing false flag¹². Beck has been accused to be 'anti-Semitic' but studying his wikipedia, this seems more theater than reality. He is also good buddies with Mel Gibson¹³ so it all reeks of theater and playing the role of a controlled opposition harlequin. Here is the interview¹⁴.
- Tim Dillon. Buddy with controlled opposition Joe Rogan and pusher of the fake January 6th attack¹⁵ and many other psy-ops. Here is the interview¹⁶.
- Jewish Patrick Bet-David¹⁷ from Valuetainment. Seller of many fake psy-ops including the fake JFK and RFK assassinations. He has also done many other interviews with controlled opposition agents Jordan Peterson, Andrew Tate, Steven Greer, Neil deGrasse Tyson, CIA agent Alex Jones¹⁸, Joe Rogan, 'mafia bosses' and many others. Here is the interview¹⁹.
- Jewish Clayton Morris²⁰. Friends with Controlled opposition agent Tucker Carlson²¹. Morris pushes the fake war in Ukraine²² and other fake psy-ops. Here are both the interviews^{23 & 24}.

There are many more, but I think you get the point.

Whitney Webb recently published two books²⁵ about Jeffrey Epstein. The books are not the most interesting part. It is the **publisher** of those books that is the most interesting. They were published by Trine Day Books. Its owner and editor-in-chief is Kris Millegan, who is an admitted son of a CIA agent. From their own website²⁶:

Kris Millegan is TrineDaily's Publisher/Editor-in-Chief and Publisher of TrineDay Books. He is a writer and researcher whose father was in the Office of Strategic Services (OSS), Military Intelligence (G2), and later the CIA, rising to Branch Chief, Head of Intelligence Analysis for East Asia. His father told Kris things he didn't understand in the late 1960's. These revelations led to more than thirty years research into the subjects of CIA-drugs, clandestine operations, secret societies and conspiracy analysis.

It is a **gold nugget** and something that I am sure they put on their website to give some credibility and appearance of knowledgeability of the books they publish. Their publications are related to espionage, secret societies and conspiracies. The apple doesn't fall far from the tree. It is obvious that Kris Millegan is also connected to CIA. He just followed in his father's footsteps.

In other words, Trine Day is just a CIA front to publish lots of controlled opposition books and propaganda. But it gets better.

Tride Day seems to be a spook hangout with many more operatives. Have a look down on that page and you will see S.K. Bain, who worked at another CIA front operation,

Rupert Murdoch's Weekly Standard (Washington Examiner) with none other than Tucker Carlson, who we outed as a controlled opposition spook above. Bain also worked at the Philanthropy magazine (Philanthropy Round table) and the Oxford American magazine. Both intelligence front operations. Further down we see 'esotericist' Jay Dyer and controlled opposition agent and spook T.W. Siebert who uses the handle 'Wolfgang Solo'.

And those are the people that work in the publishing house of Whitney Webb. Any questions?

There are also genealogy reports on the internet that Whitney Webb is actually from great wealth through the Florida real-estate Webb family, but I have not been able to pull up more than basic information, because most genealogy websites are behind a paywall and I just refuse to give these websites any money. This information should be available for free.

The information below is publicly accessible. Whitney Webb was born²⁷ on October 17, 1989, making her 34 years of age at the time of writing this article. She graduated from Pine View high school in Sarasota, Florida. She was 18 at the time of her graduation. We also get a confirmation of this info here²⁸.

Over at Intelius we find only one hit with Whitney Alyse Webb, who is 34 and has a link to Sarasota. Her Father is listed as Richard Webb, who is probably Richard Spurr Webb IV who is linked to Sarasota²⁹ and is a **mayor real estate agent** doing major **multi million dollar projects** in the area. Whitney Webb is now registered to live in Maggie Valley, North Carolina, but it seems that is only on paper, as she has claimed to reside in Chile, South America.

Whitney Webb's mother is Leigh Webb. If we go over at Myheritage, we can see that there is a Richard Spurr Webb IV associated with 'Leigh Ann' near Bradenton, Florida, near Sarasota county. Bradenton is a city in Florida and a major Jewish center.

One remarkable fact is that many listed Webb's in the directory are Jewish and depicted also in the Hebrew language. Webb is thus also a Jewish name. That is also confirmed here³⁰ among many other records. I am not sure if Whitney Webb's family is Jewish, because her name is not listed in the Hebrew language, but there is a strong link that indicates that she could be, because many Webb families are.

Back at Intelius we find Leigh Ann Webb, Age 67, linked to Richard Webb and Whitney Webb, confirming much of what we have found.

All this genealogy information is circumstantial at the moment, but in a nutshell Whitney Webb is controlled opposition and most definitely working for the intelligence community, either directly or indirectly, through the following hints:

1. The content that she puts out there and the various psy-ops that she sells as real
2. Her publisher, which is an obvious front for intelligence
3. The controlled opposition people that she is associated with publicly with respect to online interviews
4. Being quite wealthy, through her father, who seems to be well connected and who does major real estate projects.
