# **Julian Assange is controlled opposition. And his whole life is a hoax.**

This is going to enrage a lot of people, because many people love Julian Assange and truly believe he is genuine. I really don't care what emotions people have about this, because this is not a popularity contest, but it is about the truth. And the truth is that people have been duped by this bozo for far too long and it is time to expose Julian Assange for who he really is: A controlled opposition agent, professional liar and a lifetime actor that has been working for intelligence for the majority of his life. Hence the mask above in the picture. Most do not know who he is, but rather see the mask that plays a role on the world stage of deceptions and psychological operations, psy-ops.

Let's draw you the big picture here: Anybody with half a brain can see that Assange is a perfectly choreographed intelligence project, who is heavily **promoted** by the main stream media and who has 'leaked' already known information that **others** had 'leaked' to him, most notably by Bradley Edward Manning. Assange is, at best, a 're-poster', somebody that puts **already published information** on his own website, in this case, 'Wikileaks'.

If there ever was a hero in this story about leaking governmental sensitive information, it should be Bradley Edward Manning, and **not** Julian Assange. Of course, Manning is another intelligence agent, who got 'sentenced' under the Espionage act and 'pardoned' after just a few years. Manning is now known as Chelsea Manning, acting as a woman.

Manning is a hoax in his own right and it is obvious that the people at the CIA completely re-did the public image of him with the purpose of pushing him out of view and **re-focus** everything on **Assange**.

Whatever Assange has 'leaked' was something that most people **already knew**. Most of what wikileaks revealed are **psy-ops**. False operations sold as real. The information that Assange leaked was already available to Europeans through non-Jewish owned media outlets in Italy and France, one year before the wikileaks reveal.

At the same time, Assange did not contradict the false 9/11 mainstream narrative, nor did he leak **anything** on Israel and its nefarious practices, nor did he leak **anything** on the controlling international Jewish banking dynasties, nor did he say anything on the massive drug dealing in Afghanistan with top drug czar Karzai and his Israeli friends, nor did he at any time, contradict known hoaxes like Sandy Hook, Boston marathon bombing and others. Not a single word in the thousands of pages of 'wikileaks'.

On the 19<sup>th</sup> of July 2010 Assange said:

*"I'm constantly annoyed that people are distracted by false conspiracies such as 9/11, when all around we provide evidence of real conspiracies, for war or mass financial fraud."*

That is the real Assange for you. Assange always criticizes the USA and UK, but never the real cause of all the hoaxes, lies and deception of the world: the international Jewish banking families that control everything. Not one single word about them.

Instead, we get drivel that morphed into the 'pizzagate' hoax and we get general information like this:<sup>1</sup>.

- 'More than 15,000 unreported deaths in Iraq'. Hold on a second. How did they die? We are not told. But I am guessing what most people will think. 'The Americans must have done that'. Where is the evidence? There is none. Just playing your mind to assume the worst.
- Torture and abuse of more than 800 men at Guantanamo Bay prison. You have to be asleep to believe this. The problem is that Guantanamo Bay prison is fake<sup>2</sup>.
- Spying on governmental officers. You think those politicians at that level do not know this? They are there **because** of that. Politicians are 100% blackmailable. Intelligence agencies are wholly connected all over the world and politicians are the prostitutes of these intelligence agencies. Politicians **know** they are prostitutes and they are ok with it. They get the fame, power and money and they are happy to play along. Spying on **their own** politicians is something intelligence agencies do as a routine practice. It is what keeps the politicians in line to do the bidding of the intelligence agencies. Again a big nothing burger and not something to get one's skirt blown up.
- War atrocities? The controllers of our world have all the courts and political institutions in their pockets. Do you think war crimes will ever be prosecuted, other than in fake public trials with actors and feel-good results? And also, what wars? The wars in Israel<sup>3</sup> and Ukraine<sup>4</sup> are fake. So what about the others? What

about the atrocities? They can fake<sup>5</sup> any 'war' or 'proving video' with CGI and AI augmented reality. How do we know the revealed video's are even real? Most 'wars' are **fake**. So are its 'atrocities'.

- Military coups? Revolutions? Bait and switch of puppets. Most of them are theater. Most of the 'coups' and 'revolutions' are fake and hoaxed by the intelligence agencies. Just like these<sup>6,7,8,9,10,11,12,13</sup> 'revolutions'. Change of the guard, but same masters. Fake theater and nothing that we do not know already.
- Destroying Jeremy Corbyn<sup>14</sup> and his Labor party? Jeremy Corbyn is another controlled opposition puppet and crony politician, so this is more gaslighting than anything else.
- Giving large sums of money to bribe politicians? That is standard practice that everybody knows. If politicians stay in line, they will get **paid**. That's why they are **there**. They will **never** be prosecuted, because again, the courts are **not** in the hands of the people and politicians are useful idiots. We only have an **illusion** of control of the courts and nothing more.
- Hillary Clinton conspiring against Bernie Sanders? Come on! They are both part of the same group of fraudsters, tricksters and liars. They are playing the masses together. This is another gaslighting psy-op to fool you.
- Wholesale surveillance of everything around us by the intelligence agencies. Please, tell me something new. Or even better, stop using Facebook, Google and your smartphone all together before lecturing us how bad that is.

So **what** has Assange given us? Psy-ops and news we already knew. He has given us lies, deceptions and more gaslighting. He has given us **nothing** but **chaos**. It is nothing worth of a legal trial. **Nothing**. And he has not given us **real information** of the real masters that control the world. **Nothing**.

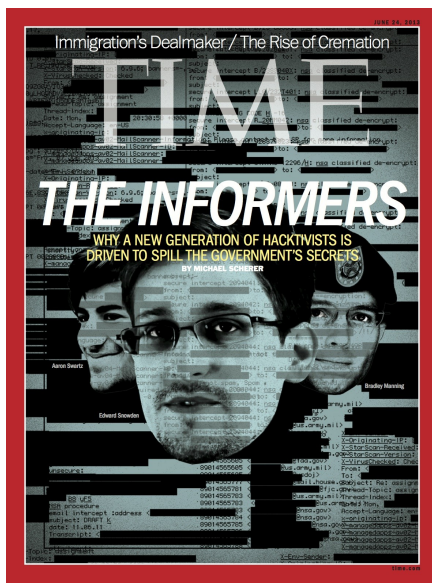

In other words, we are fed garbage, which the media treats as the most revealing, significant and damning information that was ever released. Just have a look at the Wikileaks info that has been released for yourself: It's **nothing** that will hold up in court on any day. But, who is going through all that garbage to find out that they were duped?

And his organization wikileaks is controlled opposition as well. It was one of the first promoters of crypto currencies and started to accept crypto's in 2011. But crypto's are another intelligence scam. The reason they exist is for you and I to loose a lot of money and to get used to using them in order that we are prepared for the coming central bank digital currencies or CBDC's.

The mechanics of these projects like Assange or Snowden are all is simple. Promote and push your own approved 'front-men' and mouthpieces to tell the masses half-truths what you are actually doing and at the same time, still continue to use technologies against everybody. As most of the people really don't care and want they comforts and pleasures, they go along and passively consent to the pillaging of tax-dollars, mass surveillance and blatant control. As their mouthpieces are 'doing something about the problems', most people then go about their day and don't care much about what really

happens. Of course, nothing happens, because these mouthpieces like Assange or Snowden are used to gaslight you, distract you and give you false information so you **will not resist**. It is a simple, and very effective mechanic. The many ignorant pro-Assange supporters are some of the worst advocates for freedom and in reality they are the ones that will usher in totalitarianism sooner than later.

It is also obvious that Assange is promoted by the media. So is Snowden. He is another controlled opposition agent trolling everyone. Otherwise how can you explain this:

Assange and Snowden are put on the front-covers of CIA front-operation and magazines 'Time' and 'Wired'. I know what most are thinking, 'poor Assange, his mouth is being silenced'. No, he is the poster child for **you** and **me**. Your and my mouth are going to be silenced and Assange is going to establish legal precedent to achieve that. Just wait for it once they drag his ass into one of the American theater courts to establish that precedent with a **fake trial**. **That** is the nefarious truth about Assange. He is working **against** us like a conniving little agent that is controlling the opposition, while, never being in the opposition to begin with. Assange is actually going to usher in the end of 'free speech'.

Assange even received the 2008 New Media Award from the 'economist', he received the 'person of the year readers choice award' of 2010 from Time magazine and dozen other awards from news outlets and magazines all over the world. Wow! And you tell me that the 'powers that be' want him behind bars? Please! They are milking this controlled opposition scumbag for all that he is worth and they are still doing it.

If Assange or Snowden were a real threat to the controllers of the world, you would have **never** heard anything about them. Hollywood would also have never touched them. But surprisingly, we still get these movies below, by Jewish film maker Oliver Stone<sup>15</sup>, born from a noble mother and a Jewish father, who is notorious for producing many movies of psy-ops and hoaxes and selling them as real. One example is the JFK movie, giving you an alternative, but never ever mentioning that JFK faked<sup>16</sup> his death.

The other movie on the right is Hollywood propaganda to promote hoaxter Snowden. They could go ahead and make a movie about Julian Assange as well. Probably out in a few years time after he is extradited to the US and after his fake trial.

Another way to know Snowden is controlled opposition is that he is obviously gaslighting you. He warns you about the surveillance control all over the place, but still promotes controlled opposition and snooping app 'Signal' and crypto currency spook app 'Zcash', both being honeypots. He also never mentions Israel or the ruling Jewish international banking families. Not a peep about that. He comes from a long family line of military and government operatives. He is an admitted CIA agent, who 'went rogue'. No he got a special assignment that he is still executing to this very day. What happened is that he got promoted and now works as a double agent and lives in Russia. Whatever he leaked, it pales in comparison of what is really going on involving technology and mass surveillance.

Gaslighting institute Amnesty International also did a piece<sup>17</sup> on Assange, claiming he was detained in a UK prison. Amnesty, just like all the other intelligence front organizations, are very good at gaslighting you and constantly painting Assange as the eternal victim, who is a hero for exposing all the criminality done by people in government. As you know by now, that story is the usual intelligence hogwash.

The sad thing is that Amnesty fails to tell you that most things that Assange exposed are fake and never happened. They are **psy-ops** sold as **real**. It is obvious Assange did **not spend a single day** in any prison or in any Embassy. That is just the usual bullshit story for the cameras and the world to convince you of the **victimhood** of Assange, such that you **sympathize** with him and believe the bullshit he is selling you. Don't fall for it, rather investigate for yourself. And think about all the inconsistencies in the general narrative.

People usually associate the Assange project with a 'threat to free speech'. Assange 'exposed' the malfeasance of primarily the US government under the guise of 'free speech', to expose to the world, what he thought to be evil practices. That association is

an illusion. The Assange project is actually about stifling free speech and also to show the world that if **you** expose things you will get caught and prosecuted. It is fear tactics.

It is a **warning to any investigator**. That could be you, or me. People like us, who actually want the truth be heard and shared with the rest of the world. The US government is trying to extradite Assange and convict him under the Espionage Act. If this theater happens and the US government manages to 'convict' Assange, through a fake show trial, it will be a **template** for **anyone**, who the US government or any government out there **deems** to be a **threat** to **national** security. In other words, if you are labeled a terrorist, you can be expedited and trialed for **treason**. And they will accomplish it with just Assange the actor and a bunch of other actors in court.

Assange is just a puppet that they are going to use to establish this. To be able to convict anybody that is a threat to the state. Period.

The whole purpose of this Assange project is to kill 'Free speech' once and for all by circumventing the US constitution and convict anybody under the false and unconstitutional 'espionage act'. That is why this is another reason why **Assange is controlled opposition**. He is instrumental to usher in this new paradigm.

But also some alternative bloggers do not seem to comprehend that Assange is playing them. They rather write blogs<sup>18</sup> defending Assange that he is not a CIA agent. Here is a quote and you can see why the Assange project is not comprehended and why there are millions of people defending him:

*Why is a CIA/Mossad agent/asset/limited hangout/whatever being rewarded for his loyal service with a stay in Belmarsh Prison awaiting US extradition? How does that work, specifically? Are you claiming that he was an asset that got "burned"? If so, when did this happen? Was he still an asset while he was languishing in the embassy in failing health and chronic pain? Or was it before then? His persecution began in 2010 and the US government was working on sabotaging him back in 2008, so are you claiming he hasn't been on their side since then? And if you're claiming that he used to be an asset but got burned, why are you spending your energy running around telling people on the internet he's an asset when he isn't one anymore, and now his prosecution threatens press freedoms everywhere?*

Can you see the assumptions that this blogger is making? She assumed Assange did jail time. He didn't. She assumes he was locked in an Embassy for years. He wasn't. She assumes he got burned. He wasn't. In reality, Assange is still playing out his role. To perfection. She assumes Assange was in bad health. He wasn't. A beard and some ugly clothes don't make you sick. It may give an **appearance** of bad health, but it is more an appearance of bad taste and just theater. She sells Assange's persecution as real. It isn't. It's all theater.

It is obvious this blogger is caught up in the dialectic or polarity and she has bought the lies.

Continuing with the so called 'alternative media', we have the usual suspect peaking around the corner. It is none other than **Tucker Carlson**. Another controlled opposition agent that has been outed<sup>19</sup> by other researchers. Whoever Tucker interviews or whatever Tucker touches, you definitely know it's part of another controlled opposition

project. And of course, just recently, Tucker Carlson, 'visited' Assange 'in his UK prison' and came home with "It's disgusting what they are doing"<sup>20</sup>. Yes, Tucker, it is disgusting to keep the lie train going and fooling the masses non-stop. And no, the whole Swedish Assange rape charge was all fake too. It was all manufactured to create even more chaos in this utter chaos of an Assange project.

Of course, Assange wasn't there with Tucker. Carlson just went to the UK to get photographed in front of a prison, as 'proof' to give to the American propaganda channels and got back with a scripted story out of Langley. Tucker is playing his role to the 'T'. The 'T' of Tucker. And he is gaslighting you again by letting you believe that Assange is in prison, in solitary confinement. He isn't. Solitary confinement? Which means, no other inmate can see Assange and even confirm that he is there. Isn't that convenient?

Tucker also claims that Assange spent seven years in an Ecuadorian Embassy. He didn't. In this Tucker Carlson report<sup>21</sup>, in his UK 'visit', Tucker is not allowed to film Assange in prison. Isn't that convenient? It is also obvious from that video that Julian Assange's wife, Stella Assange<sup>22</sup> is also in on the hoax, as expected. She probably is an agent as well. She was born in South Africa as Sara Gonzalez Devant, of a Spanish mother and a Swedish father of Cuban descent, but changed her name several times, from Stella Moris, to Stella Moris-Smith Robertson and later to Stella Assange. Devant is a French name so the names don't make much sense. Her whole profile on wiki looks crafted and polished. She is fluent in Swedish, Spanish and English which was very convenient for the Assange hoax. You can also know that she is an agent by the fact that Assange's team specifically hired her to help him through the Swedish rape allegation hoax. In other words, she was **chosen** to help with the hoax. This means that she was **placed** as an **agent**. Another clue that she is a trickster is that she met the Pope in 2023 to 'discuss' Assange's situation. You have to laugh at the lengths they go to dupe you.

Additionally, you know you are being fleeced once again as rapper M.I.A. and Tracy Somerset, Duchess of Beaufort, are the godmothers of the children of Assange. You have to be kidding me. They are just laughing at you for believing this whole hoax. Allegedly Assange got married with Stella at Belmarsh prison, for anybody that believes that nonsense.

Her name, 'Stella Moris', sounds a whole lot like Stella Maris, a depiction of Holy Mother Mary, so she might have chosen it as a code name and not like she says that she 'liked it'. Also the fact that it has only a single 'r' and not the usual double 'r' to form Morris, is a sign that they are playing with you. It is code. And why Morris? Well Morris is a British influential family connected to all the other spook families and connected to the Jewish international banking families of Britain. It's all there if you care to look.

Back to lying weasel Tucker Carlson. He 'came back' and gave an account of his 'interview' with Assange. What was most noticeable was that **nothing new** was revealed. It was the same cliches that we know about the Assange project and a re-affirmation that 'Russia wasn't involved', that 'Hillary Clinton cheated the Democratic convention' and that 'Assange didn't commit any crime'. It didn't seem genuine from Carlson's side. Using words like 'outrage', 'disgusting' and 'heart-breaking', but

seemingly not meaning any of it. Even being a joker at the very end of the video. They are just messing with you and laughing behind the curtains.

Then there are these anomalies:

- What idiot flees to a country that has an extradition<sup>23</sup> treaty with the US? What idiot stay at an Embassy of a country that has an extradition<sup>23</sup> treaty with the US? Seriously. Assange allegedly stayed at the Embassy of **Ecuador** in the UK. Ecuador was the **first** country that ever signed an extradition treaty with the USA. Oh, the irony! If you want to mess with the US and properly secure your safety, why not flee to Russia? Or if you don't like the cold, why not flee to Bali and sip some cocktails and do some yoga? Or if that is a bit too daring, why not flee to Vietnam and chill there? No, he liked to rub it in your face. He like to tell you, look, I really want to be caught!
- And then the Ecuador angle: So we have to believe that tiny insignificant Ecuador is powerful enough to give the UK and the USA the finger, and tell them to not mess with Assange! Don't come storming inside our Embassy building in London, or else! Because of what objective? What is Ecuador's advantage to defend this Australian weasel called Assange? What has Assange done that is so important to Ecuador to deserve such a royal treatment at the Ecuadorian embassy? Most latino people have generally not an urge to defy authority, so what game is Ecuador playing in this? Other than just taking orders to play along with the global theater around Assange? And besides, if the US wants Assange, Ecuador better hand him over as per the extradition agreement. So the whole Ecuador angle makes zero sense and is the usual bullshit.

Assange ended up at the Ecuadorian embassy to escape the Swedish rape allegations, but that whole case is nonsense. If that was a real case, Assange would have done a couple of months in a Swedish jail. Rather, he chose to **self-imprison** for more than **seven years** in an embassy in London under the watchful eye of the **whole world**. Don't you think that is a bit pompous and absurd? Why would he do that? To get sympathy and troll the world in believing his lies and hoax. He did it for **perceived credibility**. He did it to make the hoax **legitimate**. Make the lie **as big as possible** and people **will** believe it. **That's why**.

Usually, I start with the background of anybody that I look into, but I saved that for last as you will see that even his life has been a carefully directed hoax from its early beginnings. I do not believe much of what wikipedia has to say about Assange's early life.

You can read the hogwash biography of Assange here<sup>24</sup>. What stands out is that wikipedia is completely scrubbing Assange's involvement in the Australian cult, called 'the family', also known as the 'Great White Brotherhood'<sup>25</sup> where LSD and targeted brainwashing was used. Wikipedia<sup>24</sup> is making it appear that Assange's mother was involved with Leif Maynell, a member of that cult and nothing more. But there is far more to know about Assange's involvement in the 'Great White Brotherhood'.

When you read the word 'brotherhood' anywhere, read 'intelligence operation'. Most well-organized cults are run by intelligence plants and operatives. Most cult leaders are agents and these cults are also used for **recruitment** purposes for future agents and future actors-for-life. Julian Assange is also an actor-for-life, playing out the carefully orchestrated script to perfection.

Young Julian was balls-deep into this cult and it seems that he was heavily brainwashed or prepared for a future role as an agent. The cult had also the peculiar custom to dye the hair white of most of their young prospects, like you can see with young Julian here:

But Assange is not a natural blonde at all, he has brown hair. And also a fairly big nose.

So the old dying of the hair trick is still there. Why? What is Assange hiding? Nowadays he has a big white beard, like a rabbi. Does he want to signal something to his friends?

This 'family' cult was in fact a private psychiatric hospital, part of a New Age colony and consisted of many professionals, like psychiatrists, medical doctors, nurses, ranking civil servants, social workers and lawyers. The director was **Anne Hamilton-Byrne**, (born Evelyn Grace Victoria Edwards), a **theosophist** and most definitely an intelligence agent. Theosophy was another **intelligence project** that has been outed here<sup>26</sup>. You will also know that 'the family' or 'Great White Brotherhood' cult was an intel operation, just by the fact that there were many main stream documentaries and movies which came out years later<sup>27</sup>. I can go on and on about this Assange spook, but I think I made my point here. Whatever is going to happen in the next months or whatever Assange will say, just know it is all a scam and a hoax.
