Yes the war in Israel is 100% fake, put out there by the various media as real and supported by many (crisis) actors playing their part. Many people are fooled again by the dialectic. They either believe the mainstream media or they believe the alternative 'conspiracy' media. Both sell the war as real. Both are controlled by the same people. Many are trapped on one end of the polarity.

What if it is neither? What if you could, just for a moment, rise above these extremes and realize that it is all fake?

We already know that **Hamis** is a creation of Israeli Intelligence. Also the **PLO** is a British creation and an intelligence front operation that is controlled by the international Jewish banking families. Let's throw in the notion that all central banks in the region (and in the world for that matter) are controlled by these same Jewish families. Where does that leave our analysis? Well, you can't seriously defend any of the mainstream arguments nor the alternative ones, when you have the above three facts.

No need to repeat some good analysis and proof of why the whole Israel war is fake. Just take this **link** a see for yourself.

What this short article is about is why the 'war' will become real soon. With real I mean one thing: That people would have bought the big lie and then react: They develop hate, resentment, fear, anger and lots more within themselves, which would translate in **real behavior** which will get people hurt and even killed. You see the nuance? The first step is you buying the lie. The second step is you taking the **wrong action**. If somebody would take the wrong action, it will be based on that big lie.

It is not really the Jewish international banking overlords that are doing any of the atrocities, killing and raping. They are just whispering lies in your ear and you have the choice to believe them or not. If you read this, I hope you would not believe them. The truth can be known, if you dig deep and investigate.

It is the common folk that are doing horrendous acts. It is because the common folk **bought the lie**. Because they let emotions get the better of them.

It is the common folk working in the various branches of defense departments who signed up for an order-follower job to go out there and start hurting people. It is the common folk hating on other people, hating them for being different, hating them on a basis of racism and hating them because they bought the lie.

Of course the overlords have various agendas and there will be a plethora of things that will happen from now on. And they are also playing their part which should never be defended. But realize this: They have the same goals no matter what happens: to distract you from real issues, to distract you to rob you blind, to distract you from common sense, to distract you from the truth and to distract you from yourself. Just keep focused.

Don't buy the lie. Control your emotions and think. Tune down the fear, anger and resentment for a moment and use reason, logic and your own wisdom.

The war in Israel is 100% fake. What could you do with this? Just share it with people who want to hear and show them the proof and the research. Help them not to make any unintelligent decisions, because those bad decisions will keep the circus going.
