By Aurelsson

This article is probably going to piss off a lot of muslims at first, but rest assured that I write this article with the utmost respect towards Muslims all over the world.

This article is a warning for both Muslims and Christians. Both are being used for a nefarious endgame¹, which will have the Kabbalistic Jews, who control all important world affairs, come out on top. This will happen if not enough people wake up to the bitter truth: That Christians (Kabbalistic Leviathan) and Muslims (Kabbalistic Behemoth) are set to destroy each other towards the end of the Hebrew 6th millennium, as directed by Jewish Mysticism, the Kabbalah¹.

Jewish Kabbalah is the driving force behind the world stage and Muslims and Christians are mere pawns for the fruition of these Kabbalistic plans.

This article paints a clear picture who Muhammad was, what role Islam has on the world stage and why it is logical that Muhammad, if he lived at all, was a Jewish agent.

Proof is presented that Muhammad was just a puppet to front one of the biggest Jewish secret projects ever erected in the history of mankind, namely Islam, as a derivative religion of the Abrahamic root that is Canaanite Kabbalistic religion.

The Kabbalah is the newest update of Canaanite Abrahamic religion and equally the source of Judaism, Christianity and Islam. Even Freemasonry is based on Kabbalistic principles, so it is important **why** Islam was created and by whom. All these Abrahamic religions have the Canaanite priests, also known as rabbis, as their ideological creators.

It is no wonder then, that a Jew was chosen to spearhead what would become Islam, to serve as a **natural antithesis** to **Christianity**.

The truth is that Islam was set up as a tool to be used in the complete annihilation of Christianity and with it, the biggest enemy of the kabbalistic Jews, the 'goyim', the 'amalek', the esau, namely the white western Christian peoples of the world, with Europe as its biggest targeted area¹.

Since Europe is the epicenter of a massive Islamic takeover through mass immigration at present, it will come to pass that the European Islamists and European Christians - at one point of the future - will destroy each other. This has been prophesied in various Kabbalistic writings, like the Talmud, Zohar, Midrash and Torah. What prophesied means is simply, 'it's the agenda to be carried out'.

This article means no disrespect to Muslims in any sense, but seeks the **truth** and comprehension for the predicament that both Muslims and Christians find themselves in, in this modern day.

It must be stated that most Muslims and Christians are good people, believing in a higher power that is just. These people try to live as good people, following the rules and rendering honor to the god that they believe in. This article is not an attack on them.

This article is an invitation to them to see the truth: That the problem is their invented religions which are used to militarize and polarize them, with the sole goal to oppose one against the other. Their religions have been given as truth, whereas both are major scams to create strife to eventually destroy each other when the time is right. When that moment comes, the leverage is enough for the Kabbalistic Jews to strike and destroy both their enemies once and for all¹.

This article is an invitation to show that all these Abrahamic religions were invented by the Kabbalistic Jews themselves as mere tools. All main leaders of these religions were and still are Kabbalists and the very top of them know this truth. It is a war between the Kabbalists and everyone else.

These religions are tools of illusion, crafted to serve the Kabbalistic agenda.

Origins of Muhammad

The Origins of Muhammad are shrouded in mystery and are strongly disputed. There are **no** solid original works or proofs that Muhammad **ever existed**. If we take to Wikipedia² it states:

*Critical evaluation of sources is of particular importance in uncovering Muhammad's historical existence beyond the myths. Early sources for the life of Muhammad are authors from the 2nd and 3rd centuries AH (8th and 9th centuries CE), whose works constructed main biographical information to the Muslim traditions regarding his life, but the **reliability** of this information **is very much debated** in academic circles due to the oral gap between the recorded dates of Muhammad's life and the dates when these writings **begin to appear** in sources. John Burton summarizes the information provided by the multitude of available sources, from a historian's perspective: states*

*In judging the content, the only resort of the scholar is to the **yardstick of probability**, and on this basis, it must be repeated, virtually **nothing of use** to the historian emerges from the sparse record of the early life of the founder of the latest of the great world religions ... so, however far back in the Muslim tradition one now attempts to reach, one simply **cannot** recover a scrap of information of **real use** in constructing the human history of Muhammad, beyond the bare fact that he once existed.*

So it is clear, that the mainstream scholars have not a shred of proof that he ever existed, other than that **everybody** just assumes that he did. This is the usual huge red flag. For such an influential world religion, there is nothing to show for who actually initiated it. The simple truth in that case is that it has been invented behind the curtains and the figure of Muhammad was associated with the religion later.

If we have to believe the mainstream sources that he **did** exist, then we get some interesting testimonials from the mainstream sources of who he really was.

Following the **genealogy** of Muhammad, we stumble across the usual suspects.

Muhammad's father was **Abdullah** ibn Abd al-Muttalib and his mother was **Amina** bint Wahb ibn Abd Manaf al-Zuhriyya. Let's follow the motherly line first as that is the most important one. In the book³ 'The History of the Assassins', by Joseph von Hammer-Purgstall, who was a renowned Austrian orientalist, diplomat and historian, a historical **bombshell** about Muhammad is presented that has been overlooked for decades.

Joseph von Hammer-Purgstall married Caroline von Henikstein⁴ (1797-1844), the daughter of Austrian Jewish financier, called Joseph von Henikstein in 1816. The usual suspects are coming out of the woodwork. Von Hammer-Purgstall was probably Jewish as well and now connected to Jewish bankers.

Now, let's see what he - in good company of his Jewish friends - had to say about Muhammad³:

Mohammed, the son of Abdallah, and grandson of Abdolmoteleb, was descended from a family of the highest rank among the Arabians, that of Koreish [or Quraysh red.], in whose

custody were the keys of the sacred house of the Kaaba. He felt himself called to lead back his countrymen, who were sunk in idolatry, to the knowledge of the only true God, and, as prophet and legislator,' to complete the great work of purifying natural religion from the dross of superstition ; a task which so many had previously, at different times, attempted. Arabia was divided among the religions of the Christians, the Jews, and the Sabæans. To combine these three into one, by the union of that which flowed from principles common to all, for the attainment of political liberty and greatness, was the aim of his life, which had been so long spent in meditation, and only late in years was roused to active exertion. From his infancy, **his mother, Emina, who was a Jewess**, and in early youth, during a journey in Syria, the Christian monk, Sergius, imbued him with the religious tenets of Moses and Jesus, and exhibited, in the full light of its infamy, the idolatrous worship of the Kaaba, where a hundred idols demanded the adoration of the people.

According to Jewish customs, Jewry passes through the female line, which makes Muhammad, 100% Jewish, through his mother's line. Besides this, Muhammad was - as we have seen with so many of these so called 'prophets' -

'descended from a family of the highest rank among the Arabians, that of Quraysh, in whose custody were the keys of the sacred house of the Kaaba.³'

Meaning he was nobility, his tribe / family controlled Mecca and they had the spiritual control over the religious center where the Kaaba was located. Their power was absolute and Wikipedia also admits this². Muhammad was born in Mecca to the aristocratic Banu Hashim clan of the Quraysh. The Quraysh were the most **powerful** and most **wealthy merchant tribe** of Mecca⁵.

dominating trade between the Indian Ocean, East Africa, and the Mediterranean. The tribe ran caravans to Gaza and Damascus in summer and to Yemen in winter, while also mining and pursuing other enterprises on these routes.

When you read merchants, read 'bankers'. So **Muhammad was jewish** and part of the richest bankers of the region of that time.

Now, how easy would it be for the bankers to set up a new religion under the precise direction of their own ideology, the Canaanite kabbalistic religion, to forge an antithesis religion to the religion of their biggest enemy, the Christians?

Mind you, the Kabbalistic Jews already ensnared their enemy around the year 0 CE, by setting up a religion from their main base of Alexandria Egypt, to control Rome¹. This was of course the birth of Christianity with another false idol, called Jesus. He, like Muhammad, never existed, but that is for a future article.

The answer is, it would be very easy for the bankers to set up a new (Abrahamic) religion, with their vast resources and connections. In all probability, the figure Muhammad never existed, but who existed was just a family member of the Quraysh, with specific talents, who got the tap on the shoulder to spearhead this Jewish project. As we will see later on, he got the name Muhammad, a script and the rest is assumed history.

With all these Jewish Kabbalistic projects, they are always being run with members of the same family. That is, because it is a secret project and you need people you can trust, who better to use than family members? Who better than relatives, who will keep their mouths shut and execute for the family glory and the secret Rabbis' agenda?

The Quraysh tribe were most likely a Jewish Canaanite family living in Mecca and controlling all trade there. Overtly, they would **pose** to be Arabic and adhere to the Arabic religion of the region, but **secretly** they would be Kabbalistic Jews, who served a secret agenda of international Jewish establishment.

And look at the name: Quraysh. Qur-aysh, Qur-an. The name of the holy book has its root in the name of this tribe as well.

The rest of the religious propaganda of Islam is just invented, along with all the fairytale stories about Muhammad and his divine inspiration. It all **never happened**, but was just forced down the throats of the contemporary people, under the duress of the power of Muhammad's family.

The rest is indeed history. And like that, Islam just grew and took over a large portion of the world. It grew on the back of the international commercial, governmental and legal influence that the Kabbalistic Jews had since millennia.

It is also clear that the Kaaba, the big black cube in Mecca, existed before Islam. That is because it is another **Jewish** symbol, just like the the Jewish Tefillin that is being put on the head or on the arm. It is right there in the open if you wish to see it.

In all probability, most Arabic pre-Islam religions were of the same Semitic Canaanite religious root, which was all over the middle east, Mediterranean and the Arabian peninsula, around the time of the birth of Islam.

Islam is just a very well organized religion that was strongly formalized and adapted to the Semites of the region who would become the Arabic servants the Kabbalistic agenda.

If we look at Muhammad's paternal line we see **Abdullah** ibn Abd al-Muttalib as his father, as previously mentioned. The father of Abdullah, Muhammad's grandfather, was Abd al-Muttalib⁶, also known as Shayba ibn Hashim. The **mother** of this Abd al-Muttalib, Shayba ibn Hashim, was called **Salma** Bint Amr, a powerful merchant woman and **Jewess**⁸, controlling a large portion of trade for the Quraysh tribe. Again, the merchant and Jewish connection in plain sight.

According to Mohamad Jebara in his book⁹, 'Muhammad, the world changer', Muhammad's grandfather, Abd al-Muttalib, son of Salma Bint Amr, had spend the first eight years of his life with his '**mother's Jewish family**'. In other words, if the mother of Muhammad's grandfather, Salma Bint Amr was Jewish, then by

maternal progression, Muhammad's grandfather, Abd al-Muttalib, was **Jewish** too. This would make the father of Muhammad, albeit through the weaker paternal line, also Jewish. But there is more to this.

The mother of Muhammad's father, was Fatima **Bint Amr**⁸. Recognize the last name? Yes, the same as Salma Bint Amr, the Jewish great grandmother of Muhammad. Since Jews all flock together, we can safely assume that the mother of Muhammad's father was Jewish as well, thus making Muhammad's father 100% Jewish as well, through the maternal **Fatima** Bint Amr line.

So both parents of Muhammad were Jewish.

From Jebara's book⁹, here is the text where he explains that Selma Bint Amr was Jewish:

*Abdul-Muttalib had fashioned a **new biblical name for his grandson**—reflecting his own **maternal roots** in the city of Yathrib, where he had spent the first eight years of his life with **his mother's Jewish family**.*

What? Did you catch the first part? So the Jewish grandfather of Muhammad had fashioned a **new name** for his grandson. That is exactly where the name 'Muhammad' (meaning praiseworthy) comes in. As you see, it is all invented.

It gets better⁹:

The innovative Hashim struggled to find a wife who would match his pioneering spirit. He had his eye on one remarkable woman from Yathrib. She was a self-made independent businesswoman from the Banu Najjar clan named Salma (complete), a noble Jewish woman descended from King David.

Muhammad's great grandmother Salma Bint Amr was not only **Jewish** but also **high nobility**, a descendant from King David himself.

But there is more. Muhammad's first wife was Khadija bint Khuwaylid, a very wealthy **merchant**, who was born in one of the powerful clans of the Quraysh. Again, a link with bankers and money.

She was so rich that Muhammad did not have to work, but could carry out his 'religious work'. No, she was his **sponsor** and one of the main players in this whole secret Kabbalistic project. She was Muhammad's **financier**. Most likely she was Jewish as well.

After Khadija's death, Muhammad had many wives among which **two** were **Jewish**. Those were, Rayhana bint Zayd¹¹ and Safiyya bint Huyayy¹².

Why create Islam?

It is clear that Muhammad is not who most people think he was. His roots are Jewish and his actions testify of a secret Kabbalistic project to create Islam as an antithesis to Christianity.

Christians (Kabbalistic Leviathan) and Muslims (Kabbalistic Behemoth) are set to destroy each other as directed by Jewish Mysticism, the Kabbalah^{13,14,15} & ¹. The source of this agenda is found in Jewish Kabbalistic mysticism books like the Midrash, Talmud, Zohar, the Torah and various Rabbinical works which testify to this very thing. Some sources in the references are interesting material to get more profound knowledge of the Kabbalah and its plans for the end-times. This is **not** my theory, but actual things that are believed and written by Kabbalistic Jews themselves. One only need to investigate deeper to see the truth for oneself.

It is not surprising that Jesus and Muhammad were both Jewish and that their non-Jewish followers have murdered each other for centuries. It is all part of the Kabbalistic plan.

It is important to note that to the Kabbalistic Jews, everybody who is not a Kabbalistic Jew is a gentile or goyim. These gentiles need to be eradicated by the year 2240¹, which is the end of the Hebrew sixth millennium. Since Jews form a small group worldwide, it is far smarter to have the gentiles kill each other off, instead of doing it yourself. That is where Christianity and Islam come in as tools.

According to the Kabbalistic Jews, this world was created for Jews only and non-Jews are pure evil that need to be eradicated in order that the world and Jews themselves can be uplifted and reunited with the One source of all¹.

This Kabbalistic plan is very old and this agenda has been in the works for millennia. What we see now, is the end of the completion of their agenda, for which the Hebrew year 6000 would fall on 2240 CE. That is the deadline to exterminate all gentiles and thus all Christians and Muslims. If Christians and Muslims do not unite against their real enemy, the Kabbalists will surely complete their goal.
