Of course it could not be missed anywhere in the news of the world that Tucker Carlson did an interview in the Kremlin with none other than Vladimir Putin. Tucker's star is rising and he has positioned himself in the middle of the controlled opposition media worldwide. Hands down, he is the most skilled CIA agent¹ and controlled opposition puppet at this moment. He is at the top of fake news reporting and the fake 'anti-establishment' propaganda.

We have already seen that he was gaslighting us about many things², like the fake George Floyd 'killing'³ and the fake death of Jeffrey Epstein⁴. But Tucker is on a complete new level with this whole interview he did with Putin. You can watch the full episode right here⁵. But if you don't have time to watch two hours and seven minutes of bullshit, ZeroHedge has you covered with a synopsis article⁶ which they did recently.

Of course the whole interview is a classic misdirection, filled with lies, deceptions, gaslighting and the usual tricks the intelligence agencies have pulled for decades. As Putin is another intelligence agent, who was trained within the KGB and deployed in many projects, it was just an interview between two agents, two actors, who are trolling the world.

And with what are they trolling us? Well, most of the time, the interview was spent on reinforcing the fake war⁷ in Ukraine. Then we are treated with the fake polarity between NATO and Russia and the 'imminent' world war that will unfold if NATO keep poking the Russian bear.

The truth is that NATO and Russia are controlled by the same Jewish international banking dynasties, so it's more theater than anything else.

Interestingly, the interview touched upon combating Neo-Nazi groups and the objective to prohibit them all together. What Putin forgot to mention is that ALL Neo-Nazi groups are fronts for intelligence, both in Russia and the US. These are just groups to increase the polarity and create chaos. Their most important function is to keep anybody away from criticizing the Jewish influence and hegemony in the world and even better, to not think about that in any way. Because if you do, you might be labeled a Neo-Nazi. And for most, that stigma is frightening. That is the whole purpose of these groups' existence.

Surprisingly, the interview went on about Elon Musk, another intelligence creation and front-man⁸ for the international intelligence agencies.

I want to end this article with something you might not know: the interview also went into the Nord-Stream 'explosion'. Tucker asks the question: Who blew up Nord-Stream? Putin answers: 'You for sure'. By which he means the United States. Spoiler alert: **Nobody** blew up Nord-Stream. It is still there. Intact. It was just shut down for the Nord-Stream **hoax**. Another thing to distract you and another excuse to raise energy prices in Europe, which means it was an international intelligence operation to fill the coffers of the international energy producing companies. **Nothing** got blown up. So this is another example of both Putin and Carlson playing the polarity and agreeing on the same thing: that it got blown up.

No, most of the times the truth and right answer is door number three: It is just a claim and nothing happened. It is perception control. It is there to fool **YOU**.
